Steve. Good morning. As you are aware, Brenda Morris retired from the EPA last month and I have been reassigned the SPCC action involving your client, Peter Roosevelt. My understanding is that EPA and Mr. Roosevelt reached a settlement in principle earlier this summer, wherein Mr. Roosevelt agreed to resolve the violations alleged for an administrative penalty of \$50,000. I further understand that the SPCC deficiencies have been corrected and the Porter, Barker and Benton production facilities currently are in SPCC compliance. My plan in the next couple of weeks is to work with my technical counterpart Darla Hohman to draft a Combined Complaint and Consent Agreement for your and your client's review and input. I expect to have this document to you on or about August 26, 2017. If you have any questions in the meantime, please do not hesitate to contact me. Thank you,
